

Children & Families

Children's therapies

How a lead therapist can help you

Who we are

We are children's community therapists who work with your child. We are either an occupational therapist, physiotherapist or speech and language therapist.

Our role

We understand that you may need one person to help you co-ordinate the therapy for your child.

Your choice

It's your choice if you would like a lead therapist to talk to other professionals and co-ordinate therapy for you. You can change your mind at any time if you no longer want a lead therapist or if you would prefer a change in who is the lead therapist.

What a lead therapist would do for you

If you have a question and don't know who to ask then contact your lead therapist - they may know the answer or will help you find out.

If you have a problem relating to your child's therapy and don't know who to ask then contact your lead therapist - they may know the answer or will find out.

If you need to talk to someone who works with your child (for example a teacher, a nursery nurse, or a member of staff from a children's centre) then ask your lead therapist to arrange this for you.

How to contact your lead therapist
