Integrated Therapies

Integrated therapy services for children and young people in Oxfordshire

## Are you thinking of buying in additional therapy time for your setting, school or partnership?

Oxford Health NHS Foundation Trust provides Integrated Therapy Services (physiotherapy, occupational therapy and speech and language therapy) for children in Oxfordshire.

Our experienced and motivated staff run safe and well managed services that put children's needs at the heart of what we do.

The interventions that our therapists offer are outcome-focused. We can offer easy access to specialist staff for second opinions, advice and support. The providers of choice for the local NHS and the local authority, we have strong ties with many partner agencies across the county, including many in the voluntary sector.

Our staff are trained in safeguarding and are HCPC-registered and DBS-checked. We supervise our staff through close line management and regular appraisals. Our services are audited by the Care Quality Commission.

With an excellent knowledge of local services and resources we can also sign post to other services, groups, support networks, additional information etc. according to your needs ( please ask for further information ).

Our services have evolved through a history of collecting and responding to feedback from children, families and practitioners.

We always strive to listen to the families we serve and staff who deliver our services and act upon that feedback.

We offer competitive rates for a comprehensive service, so please contact us to find out more (details are on the back of this leaflet).
