

Performance in Initiating Clinical Research Q1 2014-15
70-day benchmark, valid application to first participant recruited

Research Ethics Committee Number	Trial Name	Date of Receipt of a Valid Research Application (SSI)	Date of the recruitment of the First Patient	Comments
13/SC/0045	A pilot study on the effects of adding c-reactive protein point of care testing in the management of acutely ill children in primary care	08/07/2013	20/07/2013	
13/SC/0217	A randomised controlled trial of guided self-help for binge eating	05/08/2013	21/08/2013	
12/SC/0713	Understanding the importance of plasticity in the brain mechanisms of dyspnoea perception	11/07/2013	12/11/2013	Following appropriate governance and granting of NHS Permission, the sponsor requested a site agreement, deespite no transfer of funds and no additional activity outside routine clinical care.
12/WM/0335	BCoS-Care: a pilot study for developing and evaluating a care pathway for cognitive problems after stroke	08/07/2013	08/09/2013	
13/SC/0281	An optimised person-centred intervention to improve quality of life for people with dementia living in care homes. A cluster randomised controlled trial	08/08/2013	20/11/2013	Permission delayed due to recruitment methodology queries. Managers of care homes needed to agree to their involvement before residents could be approached for recruitment, therefore delaying first patient consent.
12/EM/0391	A randomised, double-blind, placebo controlled, phase 3 study to evaluate the efficacy and safety of once a day, TAK375 (Ramelteon) tablet for sub-lingual administration (Tak375SL tablet) 0.1mg and 0.4mg as an adjunctive therapy in the treatment of acute depressive episodes associated with Bipolar 1 disorder in adult subjects	30/10/2013	20/12/2013	
13/EE/0174	Mood Action Psychology Programme (MAPP) a case series investigation of brief imagery-focussed cognitive therapy (imCT) for Bipolar Disorder	08/10/2013	06/11/2013	
12/LO/1816	Assisted Technology and Telecare to maintain Independent Living At home for people with dementia	03/12/2013	12/12/2013	
13/SC/0046	Feasibility study for a community based intervention for individuals with severe CFS/ME	05/07/2013	12/03/2014	This study was delayed significantly as Oxford Health NHS FT did not receive all required regulatory documentation that was necessary to begin the study. Once NHS permission was granted a pateint was recruited within 15 days.
13/EE/0063	Minocycline in Alzheimer's Disease efficacy trial: The MADE Trial	13/03/2014	26/06/2014	Delays in recruitment were due in part to regulatory approved documents needing to be provided to the site by the sponsor and getting a site initiation visit agreed with the sponsor. Green light was finally given by the sponsor on the 2nd June for the site to commence recruitment.
13/SC/0386	Long-term safety and efficacy of ABT-126 in subjects with schizophrenia: a double-blind extension study for subjects completing study M10-855	22/01/2014	07/04/2014	This study was delayed initially due to eligibility criteria for the first participant requiring resolution. It was further delayed when their scheduled visit had to be cancelled due to ill health.

Performance in Initiating Clinical Research Q1 2014-15
70-day benchmark, valid application to first participant recruited

13/NW/0727	A randomised, double-blind, placebo-controlled, single-dose, study of the effects of SEP 363856 and Amisulpride on bold-FMRI signal in healthy male and female volunteers with high or low schizotypal characteristics	07/03/2014	27/03/2014	
14/SC/0107	Cognitive Therapy for Fears about Other People CBT+	16/04/2014	25/06/2014
