3. Aims and Objectives

We are a community-focused organisation that provides physical and mental health services integrated with social care with the aim of improving the health and well-being for the local communities we provide services within. We provide services for children and young people, adults and older people across Oxfordshire and Buckinghamshire, and Child and Adolescent Mental Health services in Swindon, Wiltshire, Bath and North East Somerset.

We are committed to our vision for all the individuals and communities we serve to receive “Outstanding Care Delivered by Outstanding People”. The trust’s values underneath this are caring, safe and excellent.

Our strategy is based around the following elements;

Our priorities are;

- 1 To make care a joint endeavour with patients, families and carers
- 2 To improve the quality of care by transforming services
- 3 To support teams to improve the safety and quality of care they provide
- 4 To support leaders to maintain a positive culture for teams
- 5 To ensure Oxford Health NHS FT is high performing and financially viable
- 6 To lead research and adopt evidence that improves the quality of care
- 7 To embed and enhance the electronic health record

The above is translated into three clinical programmes;

- Mental Health Five Year Forward View
- Care Closer to Home
- New Care Models for Specialised Commissioning
