Speech and language therapy

What to expect  
from the Speech &  
Language Therapy  
Parent Workshop

## What happens during the workshop?

The workshop is usually run by two Speech and Language Therapists and lasts for one to one and a half hours. The workshop will run on Microsoft Teams and you will be able to see and hear other parents. You know your child best and spend a lot of time with them so we want to give you tips and ideas that you can do to help your child's language development at home.

At the beginning of the workshop, we may ask you to give some brief information about your child, such as how old they are and what you are worried about. Then we talk through a presentation give you ideas about how you can help your child's language development and you may be asked to take part in some activities. You can ask questions throughout the session and we will give you handouts at the end.

76% of parents who have attended the workshop felt that it increased their confidence in supporting their child's language development and 86% of parents stated that they will very likely implement the strategies they have learnt.

Parents said:

## What happens next?

You will be asked to try the strategies at home for 2-3 months and see how your child's language develops.

If you feel that your child is making good progress and you are no longer worried, you don't need to do anything.

If you are still very worried, phone the number below for your area and a member of our team will arrange the next steps with you. You do NOT need to fill in the referral forms again.

If you are unsure whether your child needs therapy, you can phone the number below for your area and discuss your child's progress with a member of our team.
