

Staff who wear face masks

Staff who wear face masks

	<p>Coronavirus can spread easily</p>
	<p>It can make people very poorly</p>
	<p>There are ways to keep you and your carers safe when they are with you</p>
	<p>The people who usually see you to help you with your health have to keep you and themselves safe too</p>

This means they may have to wear something different

This could be gloves, aprons or masks too

The way they look might make you feel worried

Try not to worry, they are there to help you
