

Could you offer your local Recovery College two days a year?

Oxfordshire Recovery College and Buckinghamshire Recovery College would like to invite you to our co-produced

One-Day Tutor Training (Online)

Wednesday 12th October 2022
10am to 4pm - Online

This is a one-day training in co-production and group facilitation skills, after which trainees will be able to tutor at either Recovery College.

The training is aimed at those with some experience of working in mental health (e.g. nursing/counselling/psychology/wellbeing support)

An OT working within Oxford Health said recently:

“Tutoring at ORC has given me new insight into how people really feel about mental health and given me so much more job satisfaction. It has increased my skills and confidence in how I talk to patients everyday”
