

Vocabulary and Word Finding // Year 3-4

Can you think of...?

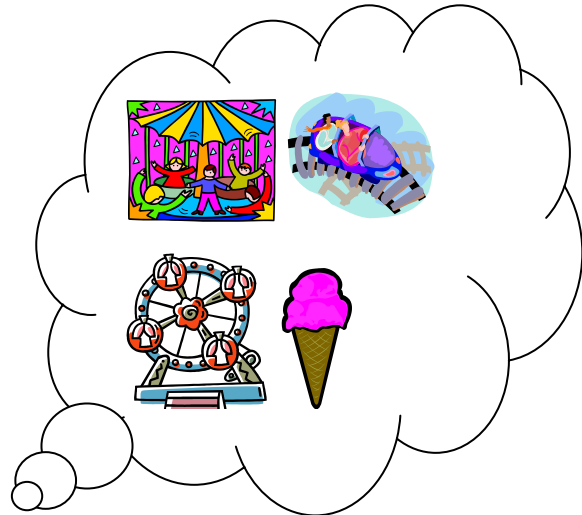

Take it in turns to think of all the words which fit a particular category, e.g. things with legs, things that are stripy/round, things found at a funfair, etc.

Think of objects which satisfy TWO conditions, e.g. White and cold = snow

Round and flat = plate, saucer

Wet and hot = coffee, tea, etc.

This can be played using the phrase "I went shopping and I bought..." You can only 'buy' something from the given category.

I Give You This Gift

Pass an object round the circle saying the phrase "I give you this gift because....." The child then has to think of one thing about the object, e.g. it is red, the wheels move round, it's really fast etc.

Similarity Snap

Spread out a selection of pictures or say 3-4 words. The child must shout "SNAP" if they think that two of the words connect in some way. They must then explain HOW the two words can be connected. If the reason is logical they can have a point.
