Journals and databases

Provided in partnership by HEE and NICE

Journals and articles

You can find journal articles by:

- browsing or searching within a particular journal
- searching in a bibliographic database (which has articles from a wide range of journals).

Journals A-Z

Browse or search for a particular journal, and then search for relevant articles within that journal.

If you [login with your NHS OpenAthens account](#) you'll see all the journals available to you.

Healthcare Databases Advanced Search (HDAS)

Search one or more bibliographic databases. This includes Medline, Embase and CINAHL. You can find journal articles, linked to full text papers where possible.

Health Research Premium Collection

Search an extensive range of health and social care publications and evidence-based resources.

PsycARTICLES

Search full text articles from leading psychology journals.

Psychology and Behavioral Sciences Collection

Search full text journals in psychology and counselling.

Evidence-based resources

BMJ Best Practice

A point of care tool. It gives step-by-step guidance on diagnosis, prognosis, prevention and treatment.

Cochrane Library

Includes the Cochrane Database of Systematic Reviews, Central Register of Controlled Trials, and Cochrane Clinical Answers.

Transfusion Evidence Library

Search for high-quality, evidence-based information on all aspects of transfusion medicine.

More information

Your OpenAthens account will let you access a range of resources, including those listed on this page.

How to register for NHS OpenAthens

What is OpenAthens?

- OpenAthens is a username and password system which controls access to web-based subscription services. Organisations, such as the NHS and universities, can use OpenAthens to provide their employees or students with access to resources the organisation has purchased. This means that you may be entitled to more than one OpenAthens username and password, depending on how many organisations you are affiliated with.

How to register for NHS OpenAthens

- For best results, OpenAthens Self-Registration should be done from a PC within the NHSnet and using an NHS email address. If you are using a non-NHS computer, your registration could be delayed for up to 15 days.
- If you already have an OpenAthens Username and Password from another institution or Trust please change to the relevant NHS organisation to ensure you get access to all resources you are now entitled to. You should log into your existing NHS OpenAthens account and then click on the 'Change your Organisation' icon on the right hand side of the screen.

1. Register for an OpenAthens User Name

Go to: <https://openathens.nice.org.uk/>

Step 1 – OpenAthens account eligibility and email

Enter email address n.b. this should be an NHS or otherwise approved email address – do not use a personal email address as this will be rejected.

Step 2 – Organisation start to type in your organisation before selecting from the list that appears below

- E.g. type **Oxford Health NHS Foundation Trust**
- or **GPs and practice staff in Oxfordshire**
- or **Commissioning** staff in South West, Thames Valley & Wessex
- or **Public health staff in England**

Step 3 - Your Details. Complete all sections

Data Protection – tick to accept terms and conditions

Submit details

On the following page under **Account details summary**, make a note of your **Username**.

2. Create your OpenAthens password:

- An **activation email** will be sent to the email address you used for your registration.
- Check your Junk and Spam inboxes if you can't find it.
- The sender is: Eduserv Athens
- The subject line is: Activate your NHS OpenAthens account
- **Click on the link in the email asap to create your password.** The password must have a minimum of 8 characters, contain a number and must not contain ascending or descending sequences eg (ABC or 123) or it will be rejected.
