Hot topic on the CPD Zone this month – Genomics

As genomics increasingly becomes a part of mainstream NHS care, all healthcare professionals, and not just genomics specialists, need to have a good understanding of its relevance and potential to impact the diagnosis, treatment and management of people in care. A new [Genomics](#) page on the CPD Zone has brought together some of the key learning resources for primary care staff.

Evidence Bulletins – sign up for your personal copy <http://tinyurl.com/yxr5buw8>

[Future-Proofing Primary Care](#)-dementia, integrated care, long term conditions, older people, safeguarding
[Reshaping Clinical Care in Primary Care](#) - innovation, leadership, skill mix, telehealth, workforce planning

Bulletins compiled by the Oxford Health NHS Library Service
