Hot topic on the CPD Zone this month – Long COVID

Analysis of data from the [COVID Symptom Tracker study](#) has shown that one in 20 people are likely to suffer from COVID-19 symptoms lasting more than 8 weeks. NICE and the Scottish Intercollegiate Guidelines Network are working with the RCGPs to develop a [guideline](#) on persistent effects of Covid-19 (Long Covid) on patients which is expected by the end of the year. Check out the [COVID-19 page](#) on the CPD Zone for more.

Evidence Bulletins – sign up for your personal copy

[Future-Proofing Primary Care](#), -dementia, integrated care, long term conditions, older people, safeguarding
[Reshaping Clinical Care in Primary Care](#), - innovation, leadership, skill mix, telehealth, workforce planning
