

Understanding Language // Following instructions with three key words

This aim of this game is to develop your child’s understanding of language containing 3 key words including the concepts of ‘big’ and ‘little’.

Cut up the big and little toys, and put some blu-tack on the back of the pictures. Lay the house and shop pictures out on the floor or a table.

Ask you child to “Put the big ball in house” or “Put the little car in shop” etc.

The underlined words indicate the ‘key’ words your child has to understand before s/he can carry out the instruction.

Play the game for no more than about 10 minutes at any one time – playing this game for shorter lengths of time more frequently is better than one long game.
